We THANK YOU!

“Enjoy the little things in life, for one day you’ll look back and realize they were the big things.”

-Robert Brault

I think we can agree that even the smallest acts of kindness – a smile, an unexpected compliment, a call, text or email to check in and say hello, waiting patiently in line, or holding a door for someone can make a difference. So, too, do the generous gifts, some small and some large, that are made to Hendricks Regional Health Foundation and recognized in this annual report.

What an amazing opportunity we have every day to help Hendricks Regional Health remain a strong, independent nonprofit health system that serves and strengthens our community and its residents. Gifts to our foundation help people get the indispensable care they need close to home. They provide access to quality care that every child, teen, and adult deserves.

It’s the little things, really, that mean a lot. A warm blanket, training and education opportunities for caregivers, prenatal care for moms and babies, glucose monitors, and digital scales to help patients maintain their health.

Thank you for your continued support. With it, we are able to make a difference, make someone’s day better, and help save lives. Yes, you make a difference, and so does your support.

“Never get tired of doing little things for others. Sometimes those little things occupy the biggest part of their hearts.”

- Ida Azhari

This annual report is filled with the names of individuals, businesses and organizations that have made gifts – and through the act of giving, have done important things for others to fill their hearts with hope and appreciation.

A woman with lymphedema who needs compression wraps and garments in order to keep down the swelling in her legs so she can walk, remain in her home, and keep up with her family.

The man battling chronic heart failure who, with the help of a simple digital scale, can weigh himself daily and notify his physician when he gains weight for an adjustment to his medications.

A woman with cancer who, during chemotherapy infusions, just can’t seem to get warm until a new blanket warmer allows nurses to keep her comfortable with heated blankets.

Yes, little things do mean a lot. They ease suffering, show someone cares, bring comfort, and ultimately make life better for our neighbors, family members, and people in need. Thank you for making a big difference through your gifts to Hendricks Regional Health Foundation.
In net income divided between two areas:

- Patient comfort, safety & community health: 75%
- Medical care for patients in need: 25%

Hendricks Regional Health Foundation raises awareness of and provides support for initiatives to enhance community health, patient comfort, safety, and medical care at Hendricks Regional Health. Donors to Hendricks Regional Health Foundation help us fulfill that mission. Generous contributions from people, organizations and businesses that care about the health and welfare of our community make a difference for our patients and those who care for them.

The names of those listed in this 2015 report of giving make a big difference for patients and caregivers. We are grateful for your generous support that helps save lives and allows Hendricks Regional Health to remain a strong, vital, independent nonprofit hospital and health system. We make every effort to ensure accuracy in our records and lists. Please contact our office if you have a question.
“Little things make big things happen.”
- John Wooden

Gifts of time, talent and treasure are not little things, but they do make big things happen at Hendricks Regional Health. I am honored to lead an amazing group of volunteers dedicated to serving our community and its hospital as members of the board of Hendricks Regional Health Foundation.

We know that our gifts, and yours, have a direct impact on patient comfort and care. We want Hendricks Regional Health to remain in our community, supporting the needs of everyone in the area with compassionate care. We appreciate the important role HRH plays in the lives of everyone who relies on its 50+ years of 24 hours a day/7 days a week/365 days a year service as a vital community asset. And we appreciate all our donors, supporters and friends who, like our board members, also believe that these little things make a big difference.

Thank you for joining us in our efforts to support Hendricks Regional Health. We appreciate your kindness, generosity and assistance to help make big things happen.
