# MISSION OF THE GALA

Once a stroke is diagnosed, it's a race against time. Our innovative Telestroke Program is helping deliver critical clot-busting treatment faster than ever before. Through partnerships with local EMS agencies, we use mobile technology to diagnose patients while they are still in the ambulance, reducing treatment times from 55 minutes to as low as 35 minutes. Our goal is to raise \$200,000 at the Hendricks Regional Health Foundation Gala to grow this lifesaving program. Showcased by the beautiful backdrop of our new Hendricks Regional Health Brownsburg Hospital, the event will feature an evening of great food, unique auction items, tours and Grammy-nominated musical guest, Foreigner. Be a part of what will be an unforgettable celebration honoring the innovation and collaboration of Hendricks Regional Health and our community's first responders as we save lives, together.
